THE PRESIDENT SEZ Ty Ozgen, President

Boy oh boy, I just don't get it. What is it about buying new tires? Do you recall 3 years ago I had bought new tires for my '90 300ZXTT and within a few days had a bolt puncture the rear tire? I had to replace the tire as it was not repairable. This was the second time that this had happened for this Z, the first was with the previous set of tires I bought several years back. Not just that, the rear tire size is hard to find these days. Anyway, just recently I had bought new tires for my wife's SUV. They were pretty expensive tires, more than my Z's to be honest as they were 19 inch tires and my Z is running the stock 16 inch ones. For whatever reason I was asked if I wanted to buy a hazard warranty, etc. I usually pass on these things but by perhaps divine intervention, I said fine, whatever. The price wasn't terribly bad and it is my wife and kids who are usually in it anyway. Well, within 5 days, my dear wife just happened to mention right before I retired for the night that "Oh, by the way, the light came on for the tire pressure today." Um, hello, could you tell me before I crawled into bed? So I went back downstairs and into the garage. I thought that perhaps the monitor just needed to be reset or perhaps the pressures were not set properly. Wouldn't you know it, she had a low left rear tire and upon closer inspection, there was a decent size nail in it. Come on, what are the odds? I put some air in it and it seemed to hold for now. I rechecked it in the morning and it was OK. The earliest I could bring it in was in 4 days so I gave her the papers and she reluctantly brought the SUV in to have it looked at. I

know it is usually a guy thing to do but so be it. Fortunately the tire was repairable.....at no cost to me.

Another thing I do not understand are gas prices. I know I have talked about it before but it still irks me. Here are some examples. As you know, there used to be a 10 cent difference between the grades of gas. This was pretty standard since I started driving. Over the last few years this had escalated to a 20 cent difference, so you would pay 40 cents more for premium than

regular unleaded. I guess I kind of got used to that. Well, last week I pulled into a Shell (I seem to complain about them a lot) and it was advertising regular at \$4.03 a gallon (without a car wash) so I assumed it would be \$4.43 for the premium. I was wrong. The price was \$4.53 a gallon. Come on...what the! Who do you think you are? I left without buying gas and bought

it somewhere else at the "expected price".

Not only that, our friends in Indiana seem to have it a bit better. We were in Munster, IN for a swim meet last weekend and I knew it would be cheaper out there so I timed it so my wife's SUV was going on fumes as we got there. I pulled into the Speedway and wouldn't you know it, their premium was only 30 cents more than regular unleaded. A steal! Ah, the good old days when all you would worry about was homework, girls and pimples. I topped it off and then some. I was smiling all day long.

Several members were able to go to the Midwest Z

event in June and had a great time. I was unfortunately unable to go but some of the attendees did send me pictures (AKA tease me) during the weekend festivities. I know for sure I will be going to next year's event as we are the host for 2015. We are in the early planning stages for it and the tentative dates are June 12-14, 2015. Look for an Evite in the future for a preliminary meeting.

July is going to be a busy month for the club. We have our Cruisin Z USA 2014 right around the corner. There will be "People's Choice" awards as we did last year. It seemed to work out well. The location should get us plenty of traffic and there are several restaurants and stores within walking distance.

An FYI about a show next month. My friend Steve is a member of the Willowbrook/Burr Ridge Chamber of Commerce and told me that Nissan is cosponsoring their annual Crusin 66 Fest Car & Bike Show on Saturday, August 9th from 11 AM to 3 PM. They will have on display some new vehicles and would like our club to display our Z's as well. This info is all from Steve as we have not been contacted by Nissan. My understanding is that we will be parking adjacent to their new cars. I'll have more information next month. See you this weekend.

Recap of past events: We had a great time at the Lisle Cruise Night in May. This is held the last Saturday of every month if you are interested. Allie and I arrived at 6pm, which was a little late for finding a spot on the street, we'll need to get there at 5 pm or so next time when they open for parking. We ended up in a grassy lot just off the street, which was still not a bad spot. We actually spent most of the night in the Yerbebuena mexican restaurant having dinner. This is a good place for having some creative Mexican entrees.

A group of us went to the Midwest Heritage Z Fest in Aurora, Ohio. As we were driving east on I-80 we noticed a red Z32 entering the highway from the ramp just ahead of us. A quick speed upIt was none other than Tom and Sharon Keene! The weather was nice the whole time. If you have "liked" us on Facebook, you were able to vicariously participate through the photos and updates we posted on Facebook during the weekend. The Cleveland Ohio club did a great job with this event. There was a nice drive through the some good roads. They were able to get all the trophy winner car photos up during the banquet. I came home with tire covers from the raffle, and some quick shine as a door prize. As door prizes, Allie

picked up a large Michelin umbrella, and C.J a duffle bag from the previous National Z Con in Cleveland. "Mad" Mike again let C.J. drive his 350Z. This time I rode shotgun and navigated, we found some great curvy scenic roads. Thanks again Mike!

Congratulations to the WCZC trophy winners!
